

Media information 2025

Required reading

Registered Gas Engineer is the industry's leading and must-read magazine.

We're Gas Safe Register's official title in print and online at www.registeredgasengineer.co.uk, full of essential technical articles, in-depth features, analysis, updates and focus areas on the gas industry.

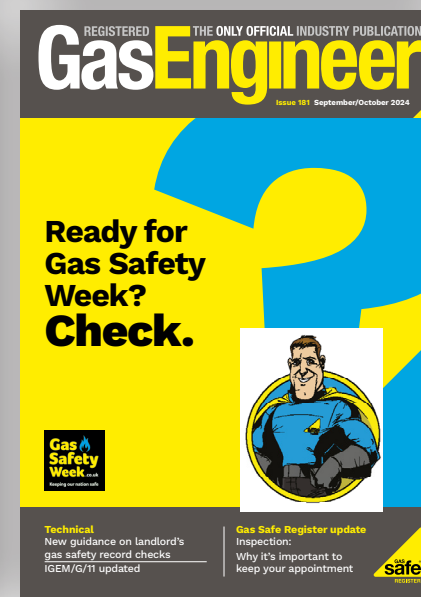

We help every business on the Register understand how industry changes and updates affect them and their daily work in keeping the UK's home and businesses heating systems warm and gas safe.

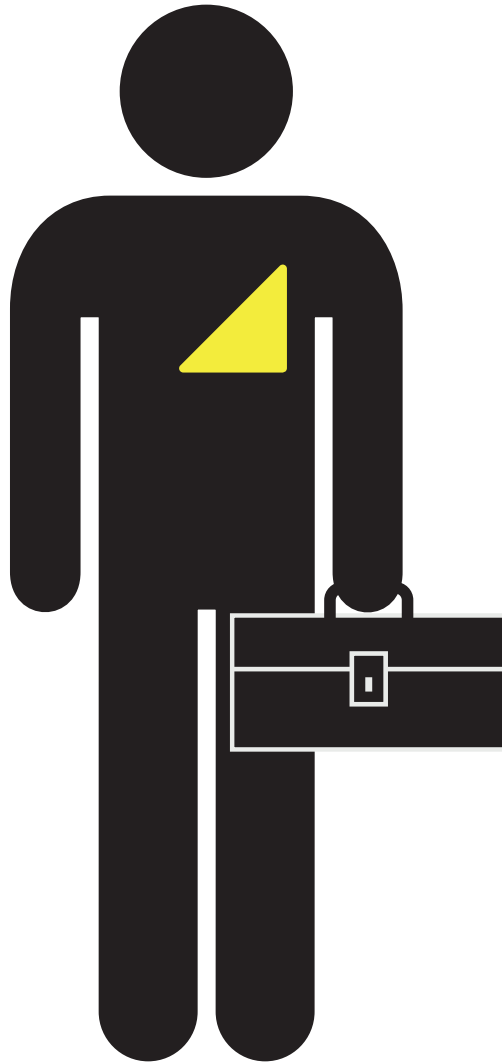

Our inclusive coverage of low-carbon technologies ensures gas engineers they have all the information and support they need in a changing heating landscape.

We provide what our readers really want:
accurate, unbiased, researched and essential information.
